

Certification of Capability in Business Analysis™ (CCBA®)

Overview

According to the International Institute of Business Analysis (IIBA), "A Certified Business Analysis Professional (CBAP)® is a recognized expert in identifying the business needs of an organization in order to determine business solutions. CBAPs are acknowledged as competent individuals performing a role [that] is increasingly recognized as a vital component of any successful project." This CBAP® certification training course is intended to comply with the International Standards Organization (ISO) 17204 standard for certifying the competence of personnel.

For the first time ever, business analysis is achieving worldwide recognition as a profession in its own right. The CBAP® and CCBA™ designation are marks of distinction for intermediate and advanced-level practitioners, recognizing their demonstration of the knowledge and skills necessary for effectiveness and a professional level of competence in business analysis principles and practices. You can count on a fun, challenging, and ultimately productive learning environment as our experts download their knowledge and secrets for IIBA certification success and help you upgrade yours.
